RUSSIANS BADLY DEFEATED.

Tokio, October 14.—It is yet too early to measure the results of the tremendous struggle which the rival armies have been engaged in the past three days south of Mukden, but reports reaching Tokio indicate that Gen. Kuropatkin has been decisively whipped and severely punished. The Russian commander was evidently caught while making a disposition of his forces and beaten before he could recover. Much depends on the activity and resolution of the Japanese in following up their advantages. Kuropatkin may turn on favorable ground and succeed in beating back the Japanese onslaught, but this seems against him.

JAPS ARE AGGRESSIVE.

The Japs yesterday began a desperate effort to turn the Russian right. If this should be successful it will carry disaster to Russian aims. The struggle around Pen-shu was followed with intense interest here. The Russian force there is estimated at 50,000 and a loss would be a severe blow. Estimates of the total forces engaged vary. One telegram from Liao Yang says that the Russians have two hundred thousand men with one hundred guns. The Japanese force exceeds the number engaged at the battle of Liao Yang.

KUROPATKIN ACKNOWLEDGES DEFEAT.

St. Petersburg, October 14.—Gen. Kuropatkin reports that during the fighting yesterday and today his advance troops were reinforced from the principal positions but that the left wing was ordered to fall back on the main position and that about 2 p. m. the centre was also obliged to fall back. The report does not mention fighting on the right wing.

NO EXCUSES THIS TIME

London, October 14.—Discussing the battle between the Russians and the Japanese south of Mukden, Baron Hayashi, Japanese minister, said to the Associated Press that the reports of Japanese success must not be construed as forebodings of a decisive blow as it is impossible for either commander utterly to crush the other. He says that if Gen. Kuropatkin is defeated in the present battle, he can put forward no strategical excuses as at Liao Yang.

RUSSIANS REPULSED

IN SERIOUS CONFLICTS

Along the Japanese Front. Defences taken and retaken. Night attacks.

Bulletin Special Dispatch.

Tokio, October 13.—A batch of reports covering the fighting of October 10 were published yesterday evening. It records serious conflicts at various points along the Japanese front. There was a desperate struggle near Benshu where the Russian crossed to Taitso river, and where the Japanese endeavored to entrap the invaders. The New Chwang garrison vigorously attacked and repulsed the Russians, possibly relieving the pressure on the Japanese line of communication.

Headquarters of the Manchurian army, October 13.—In representing the conditions on the night of October 10, our correspondent telegraphs: "The enemy with a body of infantry of considerable strength is holding an eminence west of San Chiatzu. A line of eminences east of Benshu was taken by the enemy as were the ridges east of the roadway between Suolachia and Benshu by a night attack. The next morning under cover of a mist our force succeeded in retaking the lines of eminences east of Benshu and another line of ridges between Suolachia and Benshu.

At eleven o'clock in the morning the enemy's cavalry attempted to attack the eminence east of Suolachia, but they were driven back after a hand to hand fight. The enemy left numerous killed and retreated to the base of the eminence. Reports received up to this evening show that the enemy about Benshu appears to have been reinforced, but our troops are holding their positions. The centre army reports as follows: "Our right has taken possession of a line of heights east of Yamchiku, our left reached the ridges east of Huangti, and attacked the enemy at Wilitsu but was unable to dislodge him up to sundown. Our left army reports as follows: "Our right column is occupying Kuchiatzu and vicinity and is co-operating with the left and centre. The army attacked the enemy's combined forces occupying the heights of Wullaitzu in the vicinity of Erestitzu. We took possession of a line extending from Soutaizu to Erestitzu. Our centre column reached from Chientaitzu to Kangehatai and attacked and dislodged the enemy from his position at Taitunchang which he had been holding since the day before. Our left, after attacking the enemy holding

Hellaitatun continued to advance to Hochiatun. The garrison at Hsunchuang made a night attack and drove the enemy north and east."

Mukden, October 13.—The left army reported as follows: "The advance effected to-day by us has been comparatively favorable. We are continuing the attack against a line extending from Patchiao to Luitunkow. Should the commander be unable to accomplish his purpose before sundown he will continue the attack during the night and the following day. The enemy opposing us number at least two divisions."

HOUSE OF DEPUTIES

OF BISHOPS CONVENTION

Discuss and divide on the marriage question. Canterbury leaves New York Friday

Bulletin Special Dispatch.

Boston, Mass., October 12.—A marked division of sentiment regarding the proposal to prevent the marriage of the innocent party to a divorcee during the life of the former party developed at to-day's session of the house of deputies of the episcopal general convention. Several prominent delegates expressed their opinion to-night that the present convention would refer the problem to the next triennial conference.

The House of Bishops presented the Archbishop of Canterbury with a silver loving cup. Canterbury leaves New York on Friday.

Boston, Mass., October 14.—During a two hours' debate on the divorce question to-day the House of Deputies of the Episcopal general convention, both sides appeared to be as far apart as they were yesterday, and predictions were made that no final action would be taken at this time.

WITH THE TEACHERS

AT THEIR SESSIONS

President's address followed by interesting papers. Those in attendance

Promptly at the hour of 10 o'clock yesterday morning, the eighth Annual Convention of the Northern Alberta Teachers' Association was called to order by the president, Mr. Wm. Rea, of Edmonton.

The meeting was opened by the president's speech wherein reference was made to the leading questions of the day and their influence upon the teacher. The social status of the teacher was also dealt with by Mr. Rea; it being his opinion that the present social position of the teaching profession was not as high as the qualifications warranted. Along with these the question of the teacher's work received attention. The president dealt at considerable length with the attitude of the average teacher towards his professional duties, pointing out that in this district of rapid and manifold changes, whether his tenure of office be long or short, the teacher should devote his utmost attention to his work.

The first paper to be read was then commenced by Mr. N. Tweedie in his dealing with the subject of "Birds and their habits." The reader showed no mere superficial knowledge but displayed by his use of specimens an acquaintance with the habits and life of various birds, which could only have been acquired after patient and skillful observation.

The staff of the Edmonton high school was able represented by Geo. E. Ellis, who read a paper on "Methods in Mathematics." A considerable part of the paper was a discussion of the teaching of number. Some useful suggestions on the introduction of mensuration and geometry in connection with the early study of arithmetic were also given by the reader.

C. H. Russell, of Fort Saskatchewan, concluded the morning session by reading a paper on "Versification." He pointed out that a knowledge of the ordinary changes of rhythm could be appreciated by even very young pupils, and his treatment of the subject was instructive as well as exhaustive.

At 2 o'clock in the afternoon, Miss J. Campbell, of Edmonton, opened the afternoon session by an object lesson in the teaching of history, the subject being "The early explorers in Canada." Only a portion of that extensive topic, however, was taken up, and in the object lesson the teacher illustrated the usefulness of a geographical study of history.

Inspector Perrett gave a paper on "Composition." In it he dealt with the teachers' difficulties in the teaching of this subject. Various suggestions were thrown out and applied

illustrated from a collection of sample compositions which the inspector had obtained throughout the district. A useful discussion followed the paper.

The closing paper, "Fruits and seed dissemination," was read by Miss B. McNeely, of Belmont. The nature and classification of fruits formed part of the paper. The latter part consisted of an account of the agency of various wild animals and birds in distributing the seeds of plants.

The following is a complete list of the teachers in attendance and the name of the school of which they are in charge:

ROAD TO PEACE RIVER

WORK TO COMMENCE THIS FALL

The appropriation was made for this work at the last Session of Parliament

At the last session of parliament an appropriation of \$25,000 was made to construct a highway from Edmonton to the Peace river. The Calgary Albertan has the following interview with Mr. Paradis, Government engineer, on this subject:

Paul Paradis, Dominion Government civil engineer, returned from Edmonton on Tuesday night, where he had gone to find out what would be the best time to start on the road making trip to the Peace River Landing.

He ascertained that it was impossible to start on the work until November 30.

The trail for which a grant of \$25,000 has so far been made is to connect Edmonton with Peace River Landing, where there is a settlement and a Hudson's Bay trading post. The road will be 480 miles in length via Athabasca Landing and to the Peace river.

"We will first," said Mr. Paradis, "go over the road and decide which will be the best route to follow. We will then bridge over what streams are likely to be too difficult for fording when in full flood, and make the marshes, which it may be necessary to cross, passable. It will, of course, be impossible at this time to make a first class road 480 miles in length, which would be a stupendous task. The work of improving and perfecting the road will be continued gradually, covering a number of years."

Probably thirty men and sixteen horses will be necessary for the work.

J. K. Cornwall, who is one of the largest ranchers in the Peace river country, and who when visiting in the east last fall was so emphatic regarding the possibilities of the far northern country, will be foreman in charge of the men. His home is close to Lesser Slave Lake, and he is intimately acquainted with that section of the country.

Mr. Paradis, with his family, left for Montreal this morning, where Mrs. Paradis will remain for several months.

SUNDAY LEGISLATION

APPLICATION FOR A DATE

For the hearing of all questions affecting Sunday Observance

Bulletin Special Dispatch.

Ottawa, October 14.—In the Sunday legislation reference in the Supreme court the Attorney-General for Canada was required to notify the Attorney-Generals for all provinces the Lieutenant-Governor of the North-West Territories, and the Commissioner of the Yukon District, and advertise twice in the Canada Gazette, that on the Fourteenth day of November next application will be made to the Supreme Court to have a date fixed for the hearing of questions referred, and directions as to what persons or classes of persons should be entitled to be heard thereon.

THIRTY RIDINGS

IN QUEBEC PROVINCE

Have no Conservative Candidate as yet. Only three waiting Liberal nominations

Bulletin Special Dispatch.

Ottawa, October 13.—Hon. L. P. Brodeur, was here to-day. He says that there are thirty constituencies in Quebec in which there are no conservative candidates, and only three awaiting Liberal nominations. These three are Sherbrooke, Wright and Nicolet. It is likely that Solicitor-General Lemieux will run in Nicolet, and the nomination for Sherbrooke takes place to-day. Lemieux will also run for Gaspe, which he represented in the last parliament.

WESTERN CANADA

CAN GROW THE WORLD'S WHEAT

The great question is the procuring of settlers to till the soil

Bulletin Special Dispatch.

Winnipeg, October 14.—W. P. Wood, president of the London corn Association, was a passenger on the east-bound train yesterday. Wood made the trip to the coast and returned with new ideas regarding the amount of grain which can be expected from the prairie of North-Western Canada. "It is merely a matter of getting settlers on the land," said Mr. Wood as the train pulled out. "And it will not be sixty million bushels of wheat that you will be raising, but six hundred millions. The fertile plains of Western Canada will grow the wheat of the world and will enrich you all."

Toronto, October 14.—Sir Wilfrid Laurier arrived here at noon to-day and was met by a large reception committee.

Sir Wilfrid will remain till Saturday, speaking at the Massey-Harris Hall to-morrow night.

THIS YEAR'S CROP

OF WHEAT IN THE WEST

Placed approximately at sixty-five million bushels. New Flour Mill for Fort William

Bulletin Special Dispatch.

Montreal, October 14.—The annual meeting of the shareholders of the Ogilvie Flour Mills Company was held here. The annual report submitted, showed the capacity of the mills at Montreal to be increased. The company are making arrangements for the erection of another large flour mill at Fort William. W. F. Thompson, vice-president, who has just returned from the West, reported himself as satisfied with the wheat crop of Manitoba and the Territories. He estimated this year's crop approximately at 45 million bushels.

A MELLOW TASTING SMOKE

THE tobacco plant is extremely sensitive to soil and climate.

There are certain localities in the world where tobacco grows. Because of the climate and soil of these districts the tobacco of each is peculiarly adapted to certain and different uses.

Thus the Burmese leaf makes a good cheroot—from Virginia and Turkey we get good pipe tobacco—but for cigar fillers I know of no locality like the Manicaragua district, in the Province of Santa Clara, Cuba.

The superiority of this tobacco is due entirely to the soil and climate. When I tell you that I select the best leaves of this best favored spot—you can see the reason for my Pharaoh being a superior smoke—one with an aromatic fragrance—and delicate mellow taste.

EDMONTON DISTRICT

ADVERTISED IN ONTARIO

Splendid displays at the Toronto and London exhibitions

J. L. Porte returned to the city Wednesday evening from attending the Toronto and London fairs in charge of the exhibit of the products of the Edmonton district. He left Edmonton on August 18, proceeding first to Toronto. The exhibit was placed in the annex building on the exhibition grounds and Mr. Porte was continually on hand during the two weeks of the fair answering questions concerning the exhibit and regarding Northern Alberta. From Toronto Mr. Porte went to the London exhibition where the products of this district were also displayed. After the London exhibition Mr. Porte visited Buffalo, at the request of the Farmers' Association on his way home. The trip was a most successful one and should result in good to this district.

The exhibit consisted of all kinds of grains and grasses in sheaf, threshed grain in bags, minerals, coal, brick, iron, etc.; woollen goods, the product of Webster's mills; small fruits, including red, white and black currants; honey; all kinds of vegetables; the greatest part of which were provided and selected by Donald Ross.

Reaching Toronto Mr. Porte had a notice in the different daily papers that the exhibit would be placed in the annex building, and

that he would be on hand to speak of the district as he had found it after twenty-one years experience. He also announced his willingness to reply by mail to any person desirous of getting information of the natural resources and products of the Edmonton district. He did not realize what this meant, for each succeeding mail deluged him with letters. He received over two hundred in a few days, and upon his return to the city found twenty-seven letters awaiting him. Personally answering this order was out of the question, so a copy of the Sutter pamphlet was sent to each enquirer. He was questioned by thousands of people at the two fairs, and numberless questions were answered regarding this district. Everywhere he found the greatest interest taken in Edmonton and district. Delegates called on him from various points in Michigan, from Niagara, Buffalo, different points in the state of Pennsylvania, from New York and from many other points. All were familiar with the name Edmonton, but a large proportion of them had the idea that Edmonton and the North-West Territories were parts of Manitoba. Mr. Porte acknowledges that he could not have done much had he not had the actual products of the district as the definite and emphatic proof of his statements. A great interest is being taken in Western Canada, and particularly in the Edmonton district. A very large immigration into this district can confidently be depended upon. Everywhere he went he distributed to as great advantage as possible copies of the Sutter pamphlet. He accepted invitations to go to Buffalo and speak on this district in that city.

The samples of grains and grasses

were furnished by Thos. Daly, Wm. Wakeford, Mr. Sheppard, and Fred Seamen. Ontario wheat is a failure this year and the samples of both fall and spring wheat from Northern Alberta were greatly admired. Thos. Daly's oats made the Ontario oats look sickly on comparison. Honey and small fruits from Mr. Henderson's gardens attracted considerable interest, especially the honey, for many of the people did not believe that bees could live in this country. The vegetables from Donald Ross's gardens were a striking testimony to the productiveness of the soil. Besides these exhibits Mr. Porte had sixty or seventy fine views of Northern Alberta showing recent progress as evidenced by our churches, schools, residences, etc. Both the Toronto and London Exhibition Associations granted diplomas to the city council and board of trade of Edmonton for the splendid display. The London one has been received, and that of the Toronto exhibition association is expected any time. Both associations extended invitations to make a similar exhibit next year. The C. P. R. granted free transportation to the exhibit and to Mr. Porte.

FROM JASPER PASS

H. W. Moller and Andy Cochlan have returned to the city from a prospecting trip to the Jasper pass. They left Edmonton on the 7th of September and spent 28 days going and coming back. The roads were in splendid condition for the outward trip but returning a light shower of snow made them very muddy. The weather, with the exception of two or three days, was very fine. Samples of grain grown on J. Swift's ranch in the Jasper pass were brought back and are very creditable. Mr. Swift has a small grist mill where he manufactures flour for the few ranchers in that district and also for the half-breed settlement near there. Moberly Bros. and Jock and Gregg have trading posts in that district. The Moberlys recently met with a very severe loss by the destruction of a large outfit of their trading supplies by fire.

The Pembina and McLeod rivers are very low and the Athabasca is easily fordable. It was at this point on the Athabasca that an Englishman was drowned a couple of months ago. No trace has been found of his body.

There are some good farming and ranching lands in this district. Wild flax a couple feet high, wild alfalfa, pea vine and blue joint grass grow in abundance and stock is in fine condition.

When at Prairie Creek Mr. Moller met Mr. Goings's Grand Trunk Pacific railway survey party heading for the Red River pass.
